

REXI LEON SAPUTRA

SOFTWARE ENGINEER - BACKEND

Jakarta, Indonesia | rexi.leon.saputra@gmail.com | github.com/ReonLS | linkedin.com/in/rexileonsaputra

SUMMARY

Final-year Computer Science student with hands-on backend development experience in Go, including REST API development, authentication systems, containerization, and API documentation. One year of professional software delivery at PT Realta Chakradarma, owning projects from requirements gathering and technical documentation through production deployment and end-user handover.

EXPERIENCE

Software Engineer Intern, PT Realta Chakradarma

Feb 2025 - Feb 2026

Banking & Enterprise Client Engagements: Bank Tabungan Negara

- Delivered 3 enterprise ITSM projects on Ivanti for **Bank Tabungan Negara**, across BA, Dev, and QA from requirements gathering through production deployment.
- Validated third-party REST API integrations using Postman, ensuring accurate event-to-ticket data flow between external systems and Ivanti.
- Led end-to-end delivery of a custom catalogue module for a 5-person team, covering data modelling, SQL business rules, workflow automation, and UT/SIT/UAT.
- Drove the 1.5-year Change Management project from UT to production, authoring 60+ page technical documentation and leading knowledge transfer to 15+ stakeholders across 5 business roles.

PROJECTS

Katalog-API 2026 (Golang, REST, JWT, MySQL, Docker, Swagger) | github.com/ReonLS/Katalog-API

- Developed a product listing API in Go where each user can manage their own catalogue, following production-grade practices and clean architecture principles.
- Enforced JWT-based authentication and RBAC authorization across endpoints, for Admin and User roles.
- Designed the repository layer with dependency injection to enable unit testing.
- Implemented structured input validation across 7 endpoints, returning all field errors in a single response instead of one at a time.
- Containerized the full application stack using Docker multi-stage builds and docker-compose, documented all 13 endpoints via Swagger.

EDUCATION

Bina Nusantara University – Bachelor of Computer Science

Expected Aug 2026

- **CGPA:** 3.77/4.00
- **Relevant Coursework:** Data Structures, Algorithm Design and Analysis, Database Technology, Software Engineering, Operating Systems, Computer Networks, Object Oriented Programming

TECHNICAL PROFICIENCIES

Languages: Go (Golang)

Backend: REST, SQL, JWT, RBAC, Unit Testing

Databases: MariaDB, MySQL

DevOps & Tools: Docker & Compose, Git, Postman, Swagger

Platform: Ivanti ITSM
